

PROJECT | **CLIFF**

LOCATION | **JERSEY**

FABRICATION | **BALUSTRADE**

Making the most of stunning sea views from the full height windows on all floors each balcony has toughened glass balustrades running the full width of the house with mirror polished stainless steel handrails.

With its four en suite bedrooms, guest wing and extensive leisure facilities this is a truly stunning multi million new build residence on Jersey.

The exterior of the house is complemented by side fixed 15mm toughened glass frameless balustrades running its full width; making the most of stunning sea views from the balconies and full height windows on all floors. Each balustrade has a mirror polished stainless steel handrail.

A similar glass and stainless steel balustrade was also commissioned for the interior staircase.

| MATERIALS

15mm TOUGHENED GLASS

MIRROR POLISHED STAINLESS STEEL

FRAMELESS BALUSTRADE
