Ladder Shelving

A wall fixed shelving system, beautifully engineered in high grade silver satin anodised aluminium.

The standard size of this system is 2020mm high x 1000mm wide with four shelves. Also available with different overall dimensions and number of shelves and shelf sizes, up to 300mm deep x 1000mm wide on request.

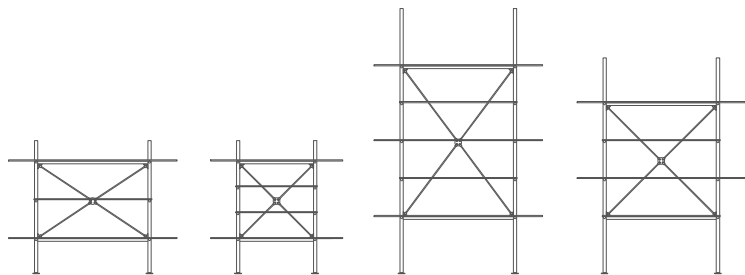

Criss Cross Shelving

A completely freestanding shelving unit featuring a cross frame stabilising detail and extended length shelves. Produced in both mirror polished and satin polished stainless steel finishes.

The standard size of this system is 2000mm high x 1100mm wide. Also available with different overall dimensions and shelving options on request.

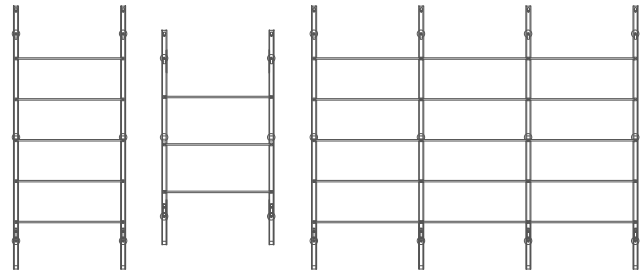

Fin Shelving

A patented wall fixed tensioned cable shelving system, comprising of pre-tensioned cable support units produced in high grade silver satin anodised aluminium. This system can incorporate two or more cable support units to hold different widths of shelves, as shown above.

Available in two standard heights -1630mm and 2000mm and can accommodate shelves up to 1200mm wide.

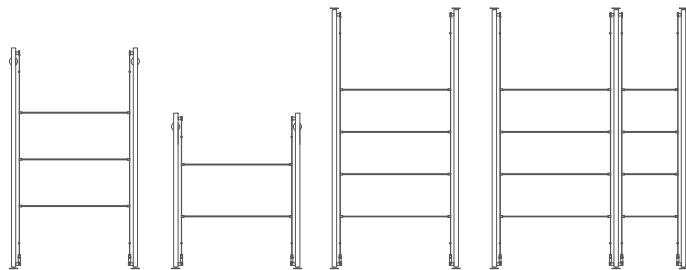

Mast Shelving

An elegant patented steel and cable shelving system, which can be wall to floor fixed or secured between ceilings and floors. It is available at different heights and in a stainless steel with a satin polished finish, or it can be produced with a highly durable painted finish in any colour.

Available with uprights from 1200mm to 3000mm high with different shelving options up to 300mm deep x 1200mm wide.

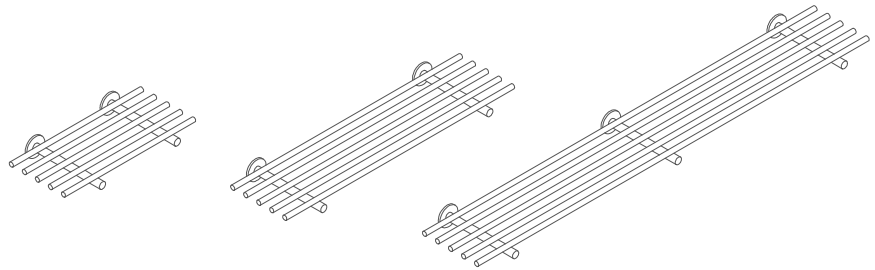

Rod Shelf

A sleek wall fixed shelf available in mirror polished stainless steel, satin polished stainless steel and high grade silver satin anodised aluminium rod.

The standard size of this rod shelf (Code RS/5B) is 700mm wide x 211mm deep, but this can also be produced to customer's own dimensions on request.

Wall Mounted Glass Shelves

Wall mounted glass shelf

10mm thick glass shelf, with wall fixings available in chromed brass and high grade silver satin anodised aluminium options.

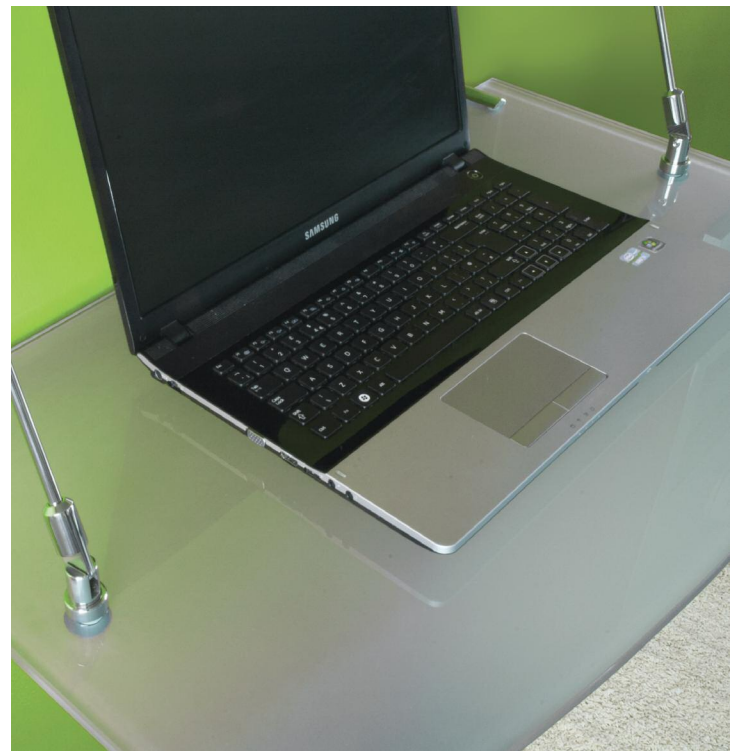

The standard size of the glass shelf is 800mm wide x 150mm deep but this can also be produced to customer's own dimensions on request.

Wall mounted glass shelf with front rail

10mm thick glass shelf with 6mm diameter front rail. The front rail and wall fixings are available in chromed brass and high grade silver satin anodised aluminium options.

The standard size of this glass shelf with front rail is 800mm wide x 150mm deep but it can also be produced to customer's own dimensions on request.

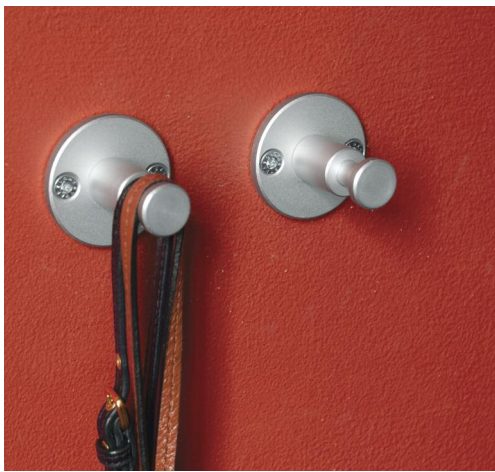

I.T. Workstations

These beautifully simple I.T. Workstations provide sleek contemporary work areas for laptops and PCs with keyboards. The Workstations shelves are securely fixed to the wall using 8mm diameter stainless steel support rods and three-screw fixing plates. They are available with support rods and fittings in either mirror polished or satin polished stainless steel and in single shelf or double shelf options.

The single shelf option features one sandblasted glass shelf 800mm wide x 476mm deep x 10mm thick, but this can also be produced to customer's own dimensions on request.

The double shelf option features one clear glass shelf 800mm wide x 280mm deep x 10mm thick and one sandblasted glass shelf 800mm wide x 476mm deep x 10mm thick, but this can also be produced to customer's own dimensions on request.
