

**PAPER RECYCLING FOR
KEEBLE RECYCLING LIMITED**

BACKGROUND

- Keeble Recycling Limited has recycled paper for more than 100 years. It knows about paper;
- 50,000 tonnes of carefully sorted paper are exported to paper mills every year.
- The traditional heavy steel containers were difficult to clean, costly to transport, expensive to maintain and keep presentable.
- 200 customers within a 100 miles radius of Rainham, Essex, exchange full Keeble DOLAV containers for empty ones as often as they fill them. Recovering costs and sending first class raw materials for reuse.

BOX SPECIFICATION

- Heavy duty to withstand rigors of repeated tipping.
- Easy to handle.
- Easy to clean.
- Low maintenance.
- Durable, long life container.
- Perforated base to allow water to drain away with solid sides.

SUMMARY

Keeble Recycling Limited of Rainham, Essex have more than 1800 DOLAV pallet boxes on their customers' premises with just 200 in process at the company recycling centre.

Blue DOLAVS collect aluminium printing plates, Red ones are for paper.

The extra third integral runner on the base of the DOLAV ACE gives security in use, Keebles always taking Health & Safety very seriously.

People, both staff and customers respect equipment which performs well, looks professional and is kind to users with its carefully radiused corners.

DOLAV ACE boxes, with or without lids can be stacked safely up to 6 high.

The lighter, cleaner, colour coded, low maintenance DOLAV system is one that Keeble Recycling Limited plans to use for many years to come.
