

### **Jtech Services Pipe Boxing looks like it grew there!**

That was the comment from the caretaker at a primary school where Jtech services supplied and installed their pipe boxing system recently.

The Pre-Formed Plywood range of Pipe Boxing from Jtech Services has been used in many projects over the years because it solves so many problems in one, easy to use, neat solution.

- Need to protect heating pipes or electrical wiring?
- Need to present your client with a neat and clean finish to a room?
- Need to protect vulnerable people from hot pipework?
- Need to do all this within a defined budget?

The simple, straightforward system from Jtech Services is easy to install and comes with a full range of matching accessories. Whilst providing robust protection for the enclosed services it is also fully de-mountable to allow for future maintenance programs.

Apart from these very practical points, the cost effective Pipe Boxing system from Jtech Services also gives a room a neat and tidy appearance, with it's pleasing white melamine finish and consistent curved edge that hides any unsightly pipework and wiring away from sight.

For more information visit [www.jtechservices.co.uk](http://www.jtechservices.co.uk) and see how you could use it on your project.
