

Expand PodiumCase

Counter and transport box for your event displays

Expand PodiumCase

The Expand PodiumCase is an easy-to-handle transport box that you quickly turn into a spacious counter. It provides a large surface to gather around at your event.

Suitable for transporting our large display walls - perfect when you need a portable exhibition for different events.

It fits into the trunk of your car.

To create the counter, just open the box and put on the accompanying table top. Cover the front with a graphic wrap with your message or logo.

It can also be used closed, then with a smaller table top (available in birch, aluminium & oak).

Use our sign kit **Expand Header** to create a promotion stand.

Add digital signage with our monitor holder for your flat screen.

Table tops in oak, birch, aluminium, black, white & black plastic. The black plastic version is a lightweight table top that also can be used outdoors.

Inside, there are detachable shelves to hold your brochures, demo products and drinks.

Add the **Expand BrochurePocket** for your brochures.

Show a movie or a presentation

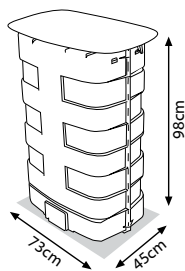

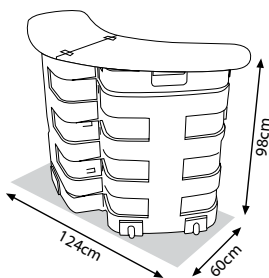

With our monitor holder, your flat screen is easily attached to the table top. This monitor mount can be used on both the open and closed Expand PodiumCase. This is a perfect way to add digital signage to your event.

The monitor holder is adapted to the VESA standard 75 & 100.
Maximum weight of monitor/flat screen: 7 kg

Expand PodiumCase for outdoor use

With our scratch and water resistant table top in plastic, the Expand PodiumCase can also be used outdoors. The graphic wrap is printed on a material for outdoor use.
