

Fun Notice Board is a Winner

Parents and children alike have commented how much they like the Owl shaped **Fun Notice Board**, designed specifically to appeal to young children, that has recently been supplied by Jtech Services to a nursery school in the Midlands.

Installed by the local school caretaker, the choice of the Owl shaped notice board in a Turquoise colour compliments well the colour scheme of the premises and ties in well with the nursery name itself.

There are a variety of other animal shapes available that can be supplied in a range of other bright colours: Yellow, Orange, Pink or Green.

The steel backed, wall-mounted notice boards are suitable for either internal or external use with the glazing being made of a vandal resistant material. Having a steel backing plate the notices are kept in place by magnetic pins, making replacing the notices easy to achieve.

To keep the notices secure and give authorised access only, each Fun Notice Board has a safety lock supplied with two sets of keys.

The unique hinge system means that there are no fixed mechanical components to go wrong or get rusty and so these notice boards will give years of maintenance free service
